Pros

- Meets all the travel requirements of users .
- Live location more precise & real time – data collected in a crowd sourced manner.
- Uses Machine learning algorithms to predict ETA.
- Available in 9 languages.
- You can avoid the delayed trains by studying the running time statistics of the trains between two stations.

Continued…

- Train Schedule can be viewed in offline mode.
- Get to know the latest news by RY bulletin.
- Most of the features are interlinked, which makes it easier to use the app.
- Provides discounts on bookings for users.
- Low battery and Data consumption.

Cons

- UI is not very user-friendly.
- Too many ads are annoying to the users.
