

Sno.	Name	Date	Rating	Review
1	Parameswaran Nampoothiri	13 October 2019	3	It's a very good app and gives location of train almost correct. Guys, I have noticed it four times in a row & able to report it only twice....the train shows as "left the station 5mins ago" when the train was actually took another good 15min to reach the station.
2	A Google user	11 October 2019	1	I don't know the reason after few months of using the app it is not helping me to find out trains between station. After putting the local station name/ code it not showing the local station name code and for destination station also same, if I put date no use/ results. Because the fields are empty
3	Shanker Nair	30 September 2019	3	Tain running time is a good feature, coach position is totally inaccurate. If this app depends on people travelling by the train & they provide the data then this app provides inaccurate information. The only plus I found is the "next station info" feature.
4	supratik chaudhury	11 October 2019	3	The running status of the train keeps coming in notification even if you have reached your destination station. My destination was in the middle of the train route. Even after I reached my station the app continued showing notification of the train.
5	Kumar Sameer	5 October 2019	1	This has a very inaccurate report...I am sitting on the station this app says the train is on the station but i cannot see any train from half an hour. It needs to get reported because yesterday also i was in train and it said that it crossed the station but it didn't even reach the station ...
6	c.sudheer kumar chowdary	2 October 2019	1	Worst app, do not use at any time there is no proper response from customer care simply they put on hold a call, after that nobody has responded. Once if you book any ticket you can't cancel your self. Even if you contact customer care simply they are wasted time after that simply they are telling.
7	Elson Sam	13 October 2019	4	The app keeps open in the notification bar even after its closed in all ways. Unless the app is force stopped,it keeps using battery and data ,and remains active. Other than that bug the app is real helpful in terms of train travel. Loved using it!!; The app keeps open in the notification bar even after its closed in all ways. Unless the app is force stopped,it keeps using battery and data , and remains active. Other than that bug the app is real helpful in terms of train travel. Loved using it!!
8	Akshay Kayapak	13 October 2019	5	Extremely Helpful App..Actually its a life saving app..Designing n engineering of this app is wonderful.Very very nice n great work dear developers.Wish u all the best.Its really not at all an easy task to give such critical n crucial n minute details about the train systems in india.Thank you so much.
9	Sushant Mishra	1 October 2019	3	I tried booking intercity smart bus but there are lot of variations in price from first page to the last page. I Understand taxes are not included even the base fare wasn't same.. price showing as 509 increased to 918... Simply makes no sense Locating a train is the only feature I have this application.
10	Joy Chackalacal	13 October 2019	5	Very good. Very very useful. It needs improvement at stations where indications are often wrong. Even when train is at stations, it shows as not yet reached (Searched not being a passenger in it...!); Very good. Very very useful. It needs improvement at stations where indications are often wrong. Even when train is at stations, it shows as not yet reached (Searched not being a passenger in it...!)

11	Roopesh Babu	2 October 2019	3	<p>Some trains update were not showing in this app. Especially Train no. 06014 Madurai-tambaram Exp. Tried a lot but update is not showing. Moreover this train is delay too and person the stays at information office also didn't give proper information about this train. Feeling really bad like why the h</p> <p>Full Review; Some trains update were not showing in this app. Especially Train no. 06014 Madurai-tambaram Exp. Tried a lot but update is not showing. It gives almost all information required for the travelers, like booking status, train running status, coach positions, seating arrangements, can set alarm for your reminders, and does a lot more. Really wonderful; NICE App for train travellers in India. It gives almost all information required for the travelers, like booking status, train running status, coach positions, seating arrangements, can set alarm for your reminders, and does a lot more. Really wonderful
175	Vishal Shaw	6 September 2019	1	Seat was available so i booked 2 rail ticket but after sometime it was fully cancelled . Tried second time but again faced the same issue. I found your app is absolutely insufficient to book tickets so i suggest you to sell chana instead of tickets.; Seat was available so i booked 2 rail ticket but after sometime it was fully cancelled . Tried second time but again faced the same issue. I found your app is absolutely insufficient to book tickets so i suggest you to sell chana instead of tickets.

181	santosh kumar	3 October 2019	5	Recently i have used it for the first time when i have to board a train at '30 am , from yatri nivas i reached platform exactly on time , Thanks.; Recently i have used it for the first time when i have to board a train at '30 am , from yatri nivas i reached platform exactly on time , Thanks.
182	dhanabal krishnappan	31 July 2019	5	Great application to check the train position and ticket confirmation. Yet to explore more on bus booking and price comparison. On the whole its very useful app.; Great application to check the train position and ticket confirmation. Yet to explore more on bus booking and price comparison. On the whole its very useful app.
183	vinay kumar	28 August 2019	1	Worst app... Believing this app i booked ticket at railway counter and the time shown in app and printed in ticket is different.. had to cancel those tickets simply lost money when cancelling 7 tickets of AC 3 tier tickets.. worst worst app to believe.. dosent deserve 1 star also for making me lose Full Review; Worst app... Believing this app i booked ticket at railway counter and the time shown in app and printed in ticket is different.. had to cancel those tickets simply lost money when cancelling 7 tickets of AC 3 tier tickets.. worst worst app to believe.. dosent deserve 1 star also for making me lose

184	RISHAV SINGH	30 August 2019	1	Railway's worst application. Most of the time transaction fails and money stuck in between. Along with that Railyatri does not have a complaint tab in its application. Totally dissatisfied. Will never ever suggest anybody else to download it.; Railway's worst application. Most of the time transaction fails and money stuck in between. Along with that Railyatri does not have a complaint tab in its application. Totally dissatisfied. Will never ever suggest anybody else to download it.
